Gabriel Registrar is an accredited certification body which provides International Organization for Standardization (ISO) management system certification and other management standards to organisations globally. We also provide a variety of inspection services to clients throughout the Globe.

We at GR with our experienced assessors provide you with certification which provides value for your management system. Many clients around the world have greatly benefited through our exemplary service. When you choose GR as your certification partner you stand to gain monetarily in your business by our straightforward assessment.

The overall aim of certification is to give confidence to all parties that a management system fulfils specified requirements. The value of certification is the degree of public confidence and trust that is established by an Impartial and competent assessment by a third party.

ISO standards...

1. Help you improve the quality of your goods and services
2. Help you drive growth, cut costs and increase profits
3. Give your business a competitive edge
4. Open up export markets for your goods and services
5. Open doors to new customers and strengthen your existing business
6. Help you compete with bigger enterprises
7. Enhance your credibility and secure customer confidence
8. Sharpen your business processes and increase efficiency
9. Strengthen your marketing pitch
10. Help you comply with regulations

What is ISO?
ISO, the International Organization for Standardization, develops International Standards in an open, impartial and consensus-based process.

At Gabriel Registrar, we have a broad portfolio of International Standards covering all aspects of business and technology.

Not sure which to choose?
Our Website – www.gabrielregistrar.com – will provide all the information you need to help you select the right standard for your business.
